

From Bottle to Boardroom

It's time to rethink what a water bottle can do. Produced from recycled plastic bottles, Cradle to Cradle Certified™ GreenScreen® Revive™ roller shade fabric is the latest innovation from Hunter Douglas Architectural – making our environment, and our business, a little greener.

Cradle to Cradle Certified™ is a certification mark of MBDC

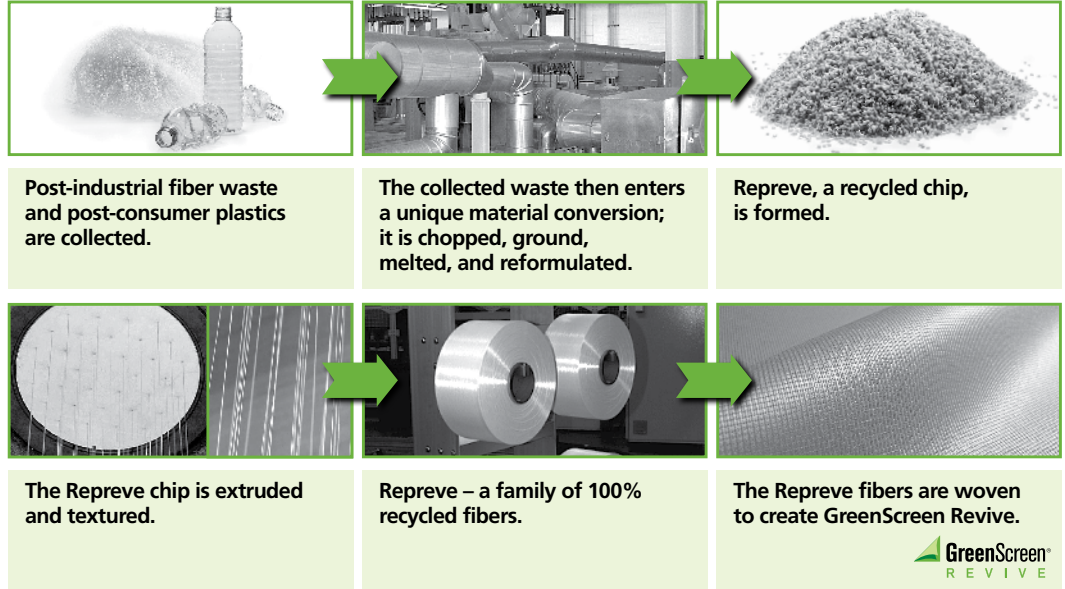

With the addition of GreenScreen® Revive™, Hunter Douglas Architectural now offers the most sustainable window shading fabric on the market.

GreenScreen® Revive™ has been Cradle to Cradle Certified™ for its material content, recyclability, and manufacturing characteristics. The fabric is made of 100% PVC-free polyester and contains a minimum of 89% Repreve® fibers. Each yard of GreenScreen® Revive™ fabric uses 11 post-consumer bottles.

Key Features

- Cradle to Cradle Certified™
- GREENGUARD Gold Certified for low VOC's
- RoHS Compliant (free of heavy metals)
- 100% recyclable
- Excellent solar control capabilities; reduces glare and reflects light, while allowing clean outward visibility
- Fire Retardant (NFPA 701, CSFM Title 19)
- Made in the USA

Repreve® Process □ GreenScreen® Revive™

Specifications – GreenScreen Revive HD2501 (1% Openness)

Max. Fabric Width:	118"	Composition:	100% polyester (PVC free) 89% recycled content
Roll Length:	50 yd	UV Blockage:	Approximately 99%
Fabric Weight:	5.87 oz/yd ²	Fire Classification:	NFPA 701-04 TM#1, California U.S. Title 19
Fabric Thickness:	0.019"		
Openness Factor:	1%		

Specifications – GreenScreen Revive HD2505 (5% Openness)

Max. Fabric Width:	118"	Composition:	100% polyester (PVC free) 89% recycled content
Roll Length:	50 yd	UV Blockage:	Approximately 95%
Fabric Weight:	5.01 oz/yd ²	Fire Classification:	NFPA 701-04 TM#1, California U.S. Title 19
Fabric Thickness:	0.017"		
Openness Factor:	5%
