

Standard Motor Control

Momentary Decorator Switch Single Pole

Product Benefits

- Simple Standard Control
- Mounts in single gang electrical box
- Single channel, individual control
- For indoor use
- SP/DT (Single Pole/Double Throw): for use with 1 single motor only
 - Cannot parallel wire with an additional motor
- Momentary switch is actuated only when user is pressing it. This is like a doorbell operation.
- Requires a 4 conductor, 120V/60Hz motor cable
