Installation

Install the brackets (L or R marked inside) with the screws provided.

- a) recess
- b) ceiling
- c) wall

Insert the Plate L into the bracket on the non-operating side. Turn the Plate L in the rolling off direction (1) and secure it with the locking clip (2). Not necessary when using bracket with leveler.

Place the tube adapter on the crank head.

Press the bearing and lift the blind until it snaps into the bracket.

Fix the blind by turning the locking ring against the bearing.

Push the profile to snap it into the bracket.

To adjust skewing, put the provided Allen key into the screw of the leveller and turn it left or right to move the blind up and down. Support lifting of large heavy blinds with the palm of your hand.

Option: Leveller

Install the brackets (L or R marked inside) with the screws provided.

- a) recess
- b) ceiling
- c) wall

Insert the crank with the front plate into the bracket (1). Turn the crank in the rolling off direction and secure it with the locking clip (2).

Fix the blind by turning the locking ring against the bearing.

Push the profile to snap it into the bracket.
Installation

Fix the bracket (L or R marked inside) with the screws provided.

a recess  b ceiling  c wall

Insert the front plate into the bracket on the non-operating side. Turn the front plate in the rolling off direction (1) and fix it with the bracket clip (2). Not necessary when using bracket with leveller.

Insert the crank with the front plate into the bracket (1). Turn the crank in the rolling off direction and fix it with the bracket clip (2).

Place the tube adapter on the crank head.

Press the tube bearing plug and lift the shade until it snaps into the bracket.

Secure the shade by turning the locking ring on the tube bearing plug furthest away from the bracket.

To adjust skewing, put the provided Allen key into the screw of the leveller and turn it left or right to move the blind up and down. Support lifting of large heavy blinds with the palm of your hand.

Option: Leveller

Place the front profile in the bracket. Make sure that the profile slides under the nose of the bracket.

Push the profile to snap it into the bracket.
Installation

Fix the bracket (L or R marked inside) with the screws provided.
