

Riviera ½ Inch Blind Model #RIV12

Top quality ½ inch horizontal aluminum window covering for commercial applications.

Key Features

Permanent Paint Process

Headrail: 1 inch high x 1 9/16 inch wide

Nominal .008 inch slat thickness

11.75mm slat spacing

Guardian Tilter disengaging clutch mechanism

Limited lifetime warranty

Product Overview

The Riviera ½ Inch Blind represents LEVOLOR's top quality horizontal blind backed by a limited lifetime warranty. Committed to both durability and aesthetics, the Riviera ½ Inch Blind combines the highest quality components with a headrail design that complements the narrow slats to achieve a more refined overall visual effect.

The permanent paint process disrupts the natural static attraction of dust particles to the slat. By removing the primary reason blinds attract dust, a reduction in accumulation can be achieved. Less dust means less maintenance and a cleaner, more professional appearance.

The slim yet durable headrail is made of thick roll-formed corrosion-resistant painted steel. The strength of the narrow headrail profile provides smooth operation under heavy commercial use. The Tomized steel hardware is securely installed, ensuring accurate alignment of moving parts and a long, maintenance-free operation.

The 8 gauge thick slats are made of 5000 series magnesium aluminum alloy and provides superior strength and resiliency, assuring a quality look for the life of the blind. As the industry leader, the Riviera ½ Inch Blind's 11.75mm ladder spacing ensures tight closure and superior light control. The exclusive Guardian Tilter disengaging clutch mechanism eliminates over rotation of the tilt wand and protects the tilt mechanism against breakage. This key feature eliminates the problem of the slats being locked in a permanent position.

The Riviera ½ Inch Blind is offered in a wide array of popular colors with coordinated components.

Open End Bracket

Hold-down Bracket

Vogue® Valance Option

Product Specifications

For more detailed specifications please reference Riviera ½ Inch Blind product Guide Specifications.

Products

- A. Riviera ½ Inch Blind manufactured by LEVOLOR
- B. Lifetime Limited Warranty
- C. Materials:

- Headrail** shall be of .025 inch thick painted steel, "U" shaped, 1 inch high x 1 9/16 inches wide. All hardware shall be enclosed in the steel headrail.
 - Guardian Tilter** shall be of a .042 inch thick Tomized steel housing with a self-lubricating nylon, automatically disengaging worm and gear mechanism to eliminate overdrive.
 - Tilt Wand** shall be transparent with a hexagonal cross section 5/16 inch in across flats.
 - Cord Lock** shall be of .042 inch thick Tomized steel and shall be crash-proof.
 - Drum and Cradle** shall be provided for each ladder.
 - a. Drums shall be of .031 inch thick Tomized steel.
 - b. Cradles shall be of .042 inch thick Tomized steel.
 - Installation Brackets** shall be of at least .048 inch thick painted steel with a rivet-hinged safety locking front cover to permit removal of headrail without lateral movement.
 - Ladders** (slat supports): Distance between slats shall not exceed 11.75mm.
 - Slats** shall be of 5000 series magnesium aluminum alloy only. Slats shall be nominally ½ inch wide and the thickness of the slats shall be 8 gauge.
- Coating includes a patented paint process which disrupts the natural static attraction of airborne dust particles
- Bottomrail** shall be of .023 inch thick painted steel.
 - Options** shall include:

<ul style="list-style-type: none"> a. Cutouts b. Extension Brackets c. Hold Down Brackets d. Multi-Colored Striping e. Multiple Blinds on One Headrail f. Pivot Plates 	<ul style="list-style-type: none"> g. Projection Brackets h. Ring Pull i. Telescopic or Non-Telescopic Pole j. Universal Ring Tilter k. 2 Slat Framed Vogue Valance
