Nominal .009 inch slat thickness

44mm ladder spacing

Optional 1 ¹/₂ inch wide vinyl or twill ladder tapes

Optional heavy duty C90 cord

Limited lifetime warranty

Product Overview

The Riviera 2 Inch Blind represents Levolor's top quality traditional favorite, backed by a lifetime warranty. Committed to both durability and aesthetics, the Riviera 2 Inch Blind combines a clean modern look of the nearly-invisible polyester braided ladders with the familiar lines of the larger slats. This high quality blind is especially appropriate with designing to achieve a large, soft window treatment look.

The permanent paint process that disrupts the natural static attraction of dust particles to the slat. By removing the primary reason blinds attract dust, a reduction in accumulation can be achieved. Less dust means less maintenance and a cleaner, more professional appearance.

The durable and sturdy headrail is made of thick roll-formed corrosion-resistant painted steel. The strength of the overall headrail profile provides smooth operation, even under heavy loads associated with large window applications. The Tomized steel hardware is machine-clinched, ensuring accurate alignment of moving parts and long, maintenance-free operation. The 9 gauge thick slats are made of 5000 series magnesium aluminum alloy and provides superior strength and resiliency, guaranteeing a quality look for the life of the blind. As the industry leader, the Riviera 2 Inch Blind's 44mm ladder spacing ensures tight closure and superior light control.

This blind is offered in a large selection of popular colors with coordinated components. A variety of options are available, including plastic or fabric tapes to complete the traditional 2 inch horizontal blind look.

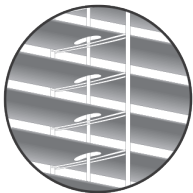

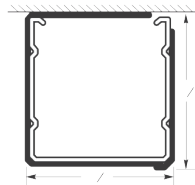

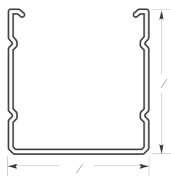

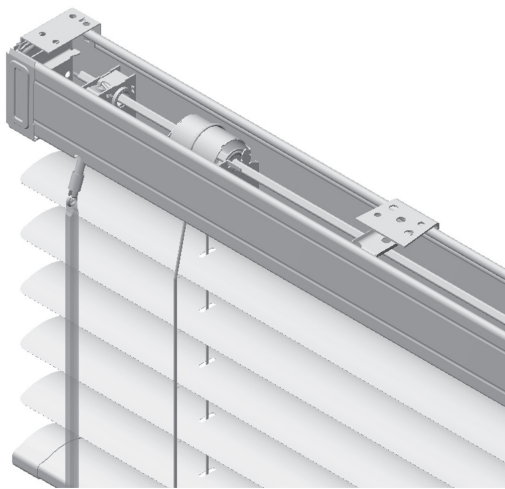

Product Specifications

For more detailed specifications please reference Riviera 2 Inch Blind product Guide Specifications.

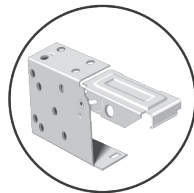

Products

- A. Riviera 2 Inch Blind manufactured by LEVOLOR
- B. Lifetime Limited Warranty
- C. Materials:

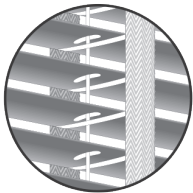

- Headrail** shall be of .025 inch thick painted, steel, "U" shaped, 2 ⁵/₁₆ inches high x 2 ¹/₄ inch wide. All hardware shall be enclosed in the steel headrail.
