

# Sonesse® 50: RA 510S2

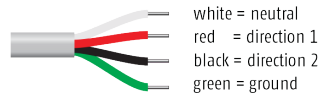

## SPECIFICATIONS

|                    |             |
|--------------------|-------------|
| Torque             | 10 Nm       |
| Nominal Voltage    | 120V / 60Hz |
| Rated Current      | 1.67A       |
| Speed              | 32 rpm      |
| Thermal Protection | 4 minutes   |
| *Sound Level       | ≤ 47 dBA    |

\*Sound Level: According to standards ISO 3741 NF 31022 in dBA ref 1pW at nominal torque without end product.

## TYPE OF CABLE (do not parallel wire)

Wired 120V AC / 60 Hz 4 conductor cable

## TECHNICAL FEATURES

|   |                                     |
|---|-------------------------------------|
| Voltage Supply:   | 120V AC, 60Hz                       |
| Ingress Protection Rating:<br>(interior & exterior use) | IP44                                |
| Limit Switch Type:                                      | Rapid adjustment                    |
| Limit Switch Capacity:                                  | 46 turns                            |
| Temperature Working Range:<br>(interior & exterior use) | - 4°F to 158°F<br>( - 20°C to 70°C) |
| Insulation Class:                                       | Class 1 for 120V                    |
| Part Number:  | Sonesse® 50 RA 510S2 - #1001813     |
