

# Universal Cord Tensioner

The Universal Cord Tensioner (UCT) has been redesigned to meet the new American National Standard (ANSI/WCMA A100.1-2022) for the Safety of Corded Window Covering Products.

The UCTs now have side release buttons for installation under tension. Beaded chains will be crimped or welded instead of using a chain connector.

Currently available in four colors – clear, black, grey and white – customers must select a color at the time of the order. Default is clear.

## INSTALLATION INSTRUCTIONS

Please find the installation instructions for the new UCT here. Click on the links below to view videos or installation documentation.
